1. Per diem costs incurred for meals and room at the state per diem rate.
2. The pilot charge. This is computed at \$10 per hour for every hour of pilot waiting time. Do not count the meal hour if the pilot is not flying during this period. The pilot charges ends when the trip terminates at Helena. On trips longer than one day, the charge stops at 5 p.m. or when the flight reaches its destination if later than 5 p.m. The charges begin again the following day at 8 a.m. or when the pilot arrives at the airport for pre-flight duties if earlier than 8 a.m.
